

# VERA L

## POWERED SPEAKER SET

VerA series totally independent portable plug & play systems in the best way combine high sound quality and compact size, still delivering considerable sound pressure.

Based on renowned Powersoft® amplification, VerA sets are complete with ready presets, ensuring quick set-up as well as smooth and flawless operation to any user.

Powerfull VerA L has a unique feature for vertical dispersion control with separation of mid-high frequency sections for even more versatility in application. Extended usability now includes delay lines, front-fill and balcony coverage.

### Main features:

- 4800 W total system power
- 4x6"+6"+1" satellites
- 15" subwoofers
- 136 dB Max SPL per side
- Complete accessories set

Frequency Response (-10dB)	42 - 20000 Hz
Max SPL (calculated)	136 dB (one subwoofer + one satellite)
Subwoofer transducer	15", 4" VC (one subwoofer)
Satellite transducers	4x 6", 1,75" VC; 6", 1,5" VC; 1", 1,75" VC (one satellite)
Nominal Coverage Angle (Horizontal x Vertical)	90 x 40 deg (per side) Adjustable vertical angle
Total system power	4800 W
Amplifier channels	1200 + 600 + 600 W (per side)
Amplifier	Class D, fan cooling, DSP with phase-linear FIR
Input sensitivity	0 dBV (1 V RMS)
Connectors	XLR input, XLR output, Powercon mains
<b>Connections and physical data – satellite speaker</b>	
Dimensions (W×H×D)	183x1180x250 mm
Net weight	24,5 kg each (each)
Shipping weight	27,5 kg (each)
Mounting	35mm pole socket
Enclosure material	Plywood; wear-resistant paint
Grill	Steel grill, polymer protective net
<b>Connections and physical data – subwoofer</b>	
Dimensions (W×H×D)	550x655x650 mm
Net weight	49 kg
Shipping weight	52 kg
Mounting	M20 distance pole adapter
Enclosure material	Plywood; wear-resistant paint
